

Fortify™ 30-20

An advanced zero nitrogen potassium phosphite designed for use in all fruit and vegetable crops.

Fortify 30 -20 is created without the need for ammonia stabilisation making it ideal for use as an irrigated or foliar applied potassium and phosphorus fertiliser.

Guaranteed Analysis

w/w

Phosphorus (P₂O₅) 30.0%
Potassium (K₂O) 20.0%

CROPS

Vine crops, root vegetables, brassicas, legumes, stone fruit, top fruit, soft fruit and ornamentals.

Directions for Use

Fortify 30-20 is known to aid phloem mobility, root function and stimulate root initiation. Avoid spraying in temperatures above 30° C.

Apply 2.0-4.0 litres per Ha 400-800 litres of water for optimum coverage and in a minimum of 200 litres.

Compatibility

Fortify 30-20 is compatible with most known fertilisers and pesticides but it is advisable to conduct a jar test with new mixes or products. It is not advisable to mix Fortify 30-20 to concentrated calcium containing fertilisers in a pre-mix tank unless they are chelated products such as Bio-Chel Ca.

Precautions

Irritating to eyes. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Wear suitable protective clothing, gloves and eye / face protection when handling concentrate.

DO NOT CONTAMINATE SURFACE WATERS OR DITCHES with contents or used container.

STORE IN ORIGINAL CONTAINER tightly closed, in a safe place.

WASH OUT CONTAINER THOROUGHLY and dispose of safely.
